

# EASY-CUT 4500 SERIES

## Product Description

Easy Cut 4500 takes the thinking out of box cutting, offering a single precise blade setting that cuts opens boxes without damaging product inside! Unlike most box cutters where you have to think about where to cut on the box to avoid damage, Easy Cut 4500 allows cutting anywhere on the box and the product inside will remain intact! It is suitable for users of all experience and skill levels.

The single depth setting to administer cuts on single wall corrugated cardboard. This eliminates the user pushing the blade out to far that results in damaged product. Give your new associates an edge by removing product damaging settings.

Easy Cut 4500 offers patented "Blade Vanishing Technology", enabling the blade to instantly retract inside the unit when it loses contact from the cutting surface, protecting the user every time. The patented clip-on holster and lanyard (stretches up to 6 feet!) with 360-degree rotation offers convenient, safe storage – reducing injuries and downtime looking for lost cutters! The dual-sided edge guide enables left and right-handed users to make quick, accurate top cuts, and slides back into locked position when the cut is complete. The on-board blade storage enables fast and tool-free blade changes.

## Key Features

- Ambidextrous edge guides
- Auto-retracting blade
- Clip-on holster & lanyard
- Ergonomic handle
- Single blade setting
- Stops product damage

## Industries Served

- Food and Beverage
