AUTO BAG R1275 MED AUTOMATIC BAGGER

Product Description

The Auto Bag R1275 Med is a smaller medical validatable bagger, excelling in packaging using manual or automated feeding forms. Ideal for a growing facility, the compact Auto Bag R1275 Med is fitting for inadequate hand packaging and larger, highly automated production systems. The R1275 features validation ports, enabling a user-friendly process for sealing. The Auto Bag R1275 validatable Medical Bagger is made in the USA and includes a 1-year limited warranty, extendable up to 5 years when exclusively using Auto Bag brand bags on a roll or poly tubing.

Industries Served

- Electronics
- Healthcare
- Logistics
- Automotive
- Cosmetics
- Shipping

Product Specifications

Technical Specifications	
Speed	Up to 60 bags per minute (dry cycle)
Speed w Thermal Transfer Printer	Up to 40 bags per minute
Bag Width	2" – 10" (50mm – 255mm)
Bag Length	3" – 20" (76mm – 508mm)
Bag Thickness	1mil – 5mil
Seal Width	1/8"
Electrical Requirement	120v, 7a, 50/60hz
Air Requirement	80psi @ 2 – 5 cfm (5.5bar @ 140 l/m)
Dimensions	26"W x 28"D x 22"H (661mm x 711mm x 559mm)
Weight	75lbs (35kg)
Warranty	1 year limited warranty, extendable to 5 years when exclusively using Rollbag brand bags on a roll
Origin	Made in the USA
